

# 10×Transcription Buffer 2 GMP-grade

## Product description

This product is optimized transcription buffer and efficient for in vitro synthesis of RNA. This product is mainly composed of buffer salts, reducing agents and magnesium ions required for enzyme proteins.

This product is produced in accordance with GMP regulations and provided in liquid form.

## Components

Components No.	Name	10670ES03	10670ES10	10670ES25	10670ES76
10670	10 × Transcription Buffer 2 GMP-grade	1 mL	10 mL	25 mL	500 mL

## Storage

This product could be stored at -25°C ~ -15°C for one year.

## Notes

For your safety and health, please wear personal protective equipment (PPE), such as laboratory coats and disposable gloves, when operating with this product.
